

Objective

My objective in a career as a Graphic Designer is to utilize my skills in illustration, graphics, layout, video, and web to create powerful and dynamic work.

Experience

- ➔ November 2006 - Present
Cedar Mountain Spa Covers: Design
Specializing in the setup of C.A.D. patterns.
Skills include: problem solving, mathematical equations, knowledge in the Patternsmith® program, and layout. I played a key role in streamlining the production process making it faster and more efficient.
- ➔ August 2008 - November 2008 (internship)
Coeur d' Alene Press: Graphic Design
Dealing with fast, deadline oriented design.
Duties included: designing, proofing, and editing several designs a day.
- ➔ May 2006 - November 2006
Kauer Property Management: Property Mngmt
Summer job managing the aesthetics on several properties making sure every property is clean and presentable.
- ➔ June 2004 - May 2006
Applebees Restaurant: Server
Utilizing top notch customer service and communication skills on a daily basis.

Education

- ➔ College:
BYU Summer of 2004
Transferred to North Idaho College in 2006
Graduated Spring 2010 with A.A.S.
Major: Graphic Design
- ➔ High School:
Hillsboro High School 2000

Special skills

Fluent in Conversational Japanese.
Congenial, respectful, optimistic and patient.

Professional skills

I have been schooled in taking my analog artistic styles (pen and pencil) and transferring them to a digital format. Learning the essential design programs such as Adobe® Photoshop, Illustrator, and InDesign has immensely magnified my skills with a pencil and my eye for design. I also have become well versed in XHTML and CSS and have been focusing on web design since before I graduated. I also have taken part in various video productions and all the duties included. I am most efficient with Macintosh and its operating system, however, I can also work with Windows.
